

## BSc (Hons): Electronic Engineering

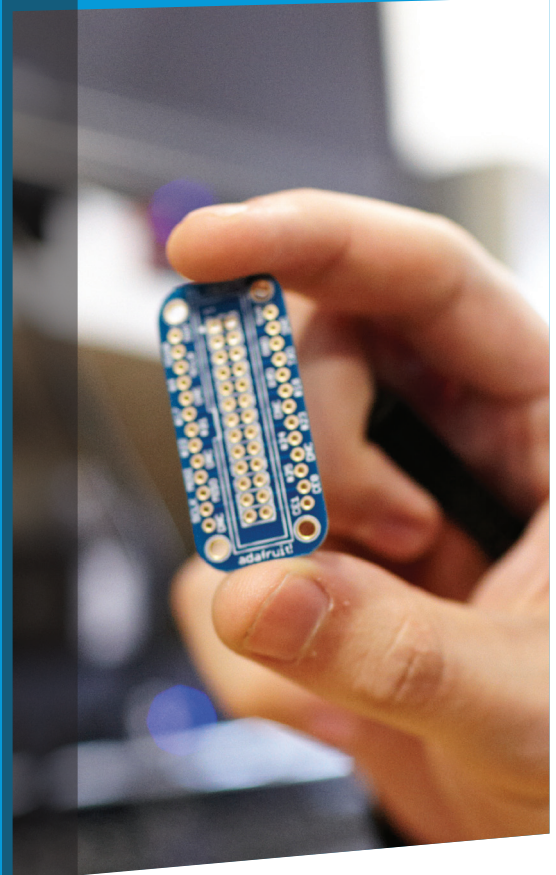

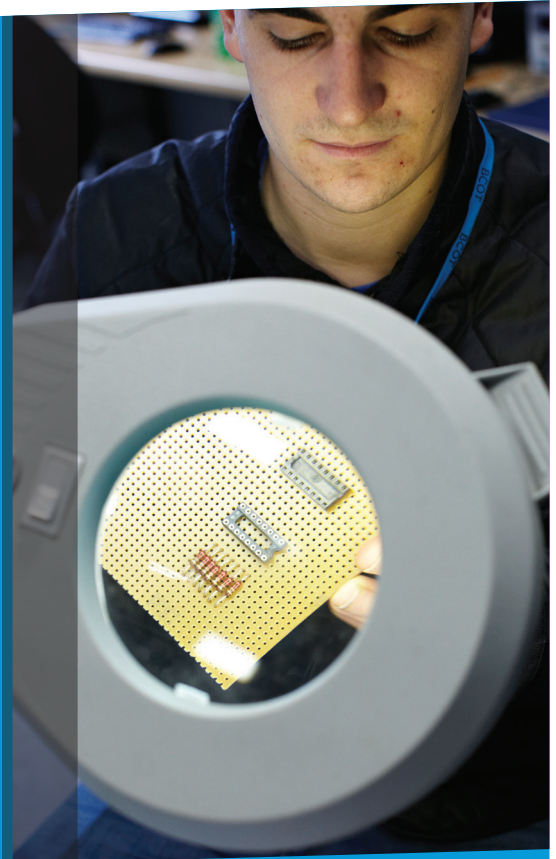

Basingstoke College of Technology offers this three year degree programme with the first two years delivered at the College campus through the HND route. The final year is topped up to a degree with Southampton Solent University. Students must apply for their final year of study via UCAS in their second year at the College.

To develop your knowledge you will undertake a range of lab work and hands-on projects, mixed with academic theory. During your course we will also support you in developing key employability skills, including maths, problem solving, decision making, IT and communication.

### Modules include:

- Analytical methods for engineers
- Engineering science
- Project
- Health and safety
- Engineering design
- Electrical / electronic principles
- Instrumentation and control
- Electrical / electronic measuring and testing

This course requires an IELTS score of 6.0  
3 year course – Cost at BCoT: £6200 per year  
The third year at University currently costs between £10-11000.
